## "The South 40"
by JAMES A. SMITH
EXTENSION AGENT

May livestock slaughter reports show a drop in production over the same month a year ago.

Cattle slaughter was down 26%, hogs down 11% and calves down 17% from a year earlier. This is the same trend reported in April. No wonder retail prices are up.

• • •

When is the best time to sell dark tobacco? In 1971 top prices were paid in January when they averaged 55.54c per cwt. December prices averaged 54.44 and February averaged 52.74.

In 1972 January prices averaged 66.94c per cwt, 62.87c in December and 54.86 in February.

• • •

We don't eat as much meat as we sometimes think.

In 1972 our per capita consumption of red meat was 188 pounds. This figure is on-the-rail carcass weight rather than edible lean weight. What we really ate in 1972 was slightly less than 3 ozs. of cooked meat per day or a total of 66 pounds. Beef accounted for 44.6 pounds; pork, 19.4 lbs.; lamb, 1.2 lbs.; and veal, .8 lbs.

The new wheat. Abe, will be available for fall seeding. Carter Martin has ordered several bushels of this variety.

Researchers at VPI feel that Abe combines the best qualities of Arthur and Arthur 71.

Growing flowers is a hobby that's enjoyed by many. Not only do flowers add color to the home garden; the care of them is good therapy. I note that one source of daffodil bulbs is offering them for forty cents to one hundred dollars a bulb.

• • •

The lightening bug or firefly story is a rather interesting story. Actually this insect is neither a bug or fly, but a beetle.

In the early evening the conspicious display of lights began and continue until full darkness. In most instances it's the male firefly we see flying and flashing. The flash is always produced as the beetle is flying up or over - never down. The females remain hidden in the grass when they do their flashing.

The flashing of fireflies is a "Boy-Meets-Girl Game." The male's eyes are directged downward looking for a female. After a male flashes, a female will respond with a short and dimmer flash. The time between the male's flash and a female's response is precise, and he will respond only to the flashes timed correctly. If he spots the flash of a female, he will fly toward it - still flashing. Eventually he will locate her on the ground where mating takes place.

The flight produced by these insects is a cold light; nearly 100 percent of the energy given off appears as light. In the electric light bulb, only 10 percent of the energy is light, the other 90 percent is given off as heat.

ANSWERS ON PAGE 9

## Correction

In the last week's edition of the **Times-Virginian**, we ran a picture taken at the Appomattox Primary School of a party honoring Mr. W. Thomas Johnson who has accepted a position with the State Department of Education.

We stated that Mrs. Travis Poole presented Mr. Johnson with a gift of a Polaroid camera from the teachers at the school. It should have read that the gift was presented from the winter and the summer staff at Appomattox Primary School.

We regret this error.

## RECIPE

**By Sarah Anne Sheridan**

During these hot summer days the wise homemaker keeps extra packages of mixes and frozen fruit concentrates in the freezer. Many delicious dishes may be made with them

**Angel Peach Dessert**

1 pkg. angel cake mix
1 3-oz. pkg. orange flavored gelatin
2 c sliced peaches
1 c whipped cream
4-oz. pkg. shredded coconut, toasted

Bake angel cake according to directions on package. Cook. Remove from pan. Cut center from cake to make hole 4 inches across. Place cake on a flat plate. Prepare gelatin as directed on package. Chill until partially set and fold in peaches. Pile center of cake with this mixture. Chill until set. Frost top and sides with whipped cream and sprinkle with toasted coconut.

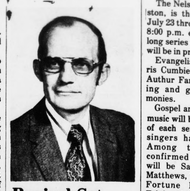
## CHURCH NEWS

**Seventh-day Adventist Church**
Elder McDaniel - Pastor
Sabbath School - July 15-21.
Theme: Jesus' Word and Work
Subject: "Challenge"
Sabbath: "Come to me and listen to me, hear me and you shall live: I will make a covenant with you this time and I will love you faithfully as I did David." Isa. 55:3, NEB.
Sabbath: Our lesson this week we have the Creator communicating with Adam and Eve. Down through the centuries God has sought various means to reach mankind. Finally God sent his Son, Jesus. This was the perfect revelation of the character of God. Satan has always attacked this. Still the word of God is an infallible revelation of His will and a sure guide to every man in his many decisions. Part 1. Direct quotes: Gen. 2:16, 17, NEB. "Then God said to the man." You may eat from every tree in the garden, but from the tree of knowledge of good and evil, for the day that you eat from it, you will certainly die." Satan's first stroke has been an effort to change the law of God so as to lead men to disregard its precepts while seeming to obey. Prophet and Patriarchs p. 178. Part 2. Through the prophets. 2 Chron. 20 - 20 "Believe in the Lord your God, and you will be established; believe in his prophets, so shall you prosper." Read Matt. 24:14; 5:15 - Part 3. The Great Commission. Heb. 1:2 "God has spoken to our fathers at sundry times and in divers manners spoke in time past unto the fathers by the prophets, hath in these last days spoken unto us by his Son." Paul in Heb. 12:3,4 (RSV) "Consider him who endured from sinners such hostility against himself, lest you grow weary and lose heart. You have not yet resisted to the point of shedding your blood as Jesus did for us. Part 4. The Written Word - 2 Tim. 3:16, 17. "All scripture is inspired by God and profitable for teaching, for reproof, for correction, and for training in righteousness, that the man of God may be complete, equipped for every good work." Part 5. Christ on The Word. Rev. 19:11 (RSV) "Then I saw heaven opened, and behold a white horse, he who sits upon it is called Faithful and True." Who is the beast that comes out of the bottomless pit? Read Rev. 17:8; 13:1-8. Also read Rev. 11:7 (RSV) "And when they have finished their testimony, the beast that ascends from the bottomless pit will make war upon them, and conquer them and kill them, and their dead bodies lie in the street of the great city which allegorically is called Sodom and Egypt, where their Lord was crucified." The Old and New Testament, both point forward to the "hour to come." Some one has said, Satan employs every possible device to keep men from reading their Bibles. Part 6. The Word of Christ. Matt. 5: 17,18, "Think not that I am come to destroy the law, or the prophets: I am not come to destroy but to fulfill. For verily I say unto you, Till heaven and earth pass, one jot or one tittle shall in no wise pass from the law, till all be fulfilled. God



## Revival Set For Red Oak Baptist Church

**Rev. Melvin Winters**

Red Oak Baptist Church will hold revival services July 22-27 beginning at 8:00 p.m. each evening.

The Rev. Melvin Winters of Lynchburg will be the guest evangelist. Rev. Winters was born in Mississippi and was graduated from Mississippi College and Southeastern Theological Seminary. He has pastored churches in Mississippi, North Carolina and Virginia and is now pastor of Flat Creek Baptist Church in Lynchburg.

Rev. and Mrs. Winters are the parents of one son.

There will be special music at the revival services. The public is cordially invited to attend.

uses the office of heavenly angels to comprehend His words of Truth to us. Brothers and Sisters may we all day by day study God's word that we may draw closer to Him and to each other.

PS Secretary for the
Appomattox S.D.A
Church Faith

## First Baptist

Regular preaching services were held at the First Baptist Church Sunday at 11 a.m. Rev. K. W. Davis delivered the message which was enjoyed by all. Baptizing services were held at 7:30 p.m. and communion was served. Rev. L. E. Hankins and Rev. A. J. Sherill took part in the service.

We were happy to have Rev. Davis, wife and family with us Sunday also his brother. His brother and son attended both services.

Mrs. T.W. Hamlet visited friends and relatives in Baltimore, Md. and Parkersville, Md. last week. She had an enjoyable week.

Miss Beatrice James has returned to Germany after spending her vacation at home.

Mr. Carrington Wright, of Baltimore, Md. spent a few days here visiting relatives and friends. He returned Tuesday evening.

Mr. Mate Wright, of Baltimore, Md., is visiting his sister, Mrs. Ada Nowlin.

## Lovingston Crusade

The Nelson Theater, Lovingston, is the place to be from July 23 through July 27, 1973 at 8:00 p.m. each night. A week long series of crusade meetings will be in progress at this time.

Evangelist Don Bryant, Morris Cumbie, Billy Peters, and Authur Farmer will be speaking and giving their testimonies.

Gospel and Bluegrass Gospel music will be an important part of each service. Many gospel singers have been invited. Among those who have confirmed their appearances will be Sammy Trial, Curtis Matthews, The Crusaders, The Fortune Family and The Trinity Echoes.

The Rev. Bryant, who is 24 years old, is from Buckingham and received his formal religious schooling at Luther Rice Seminary, Jacksonville, Florida.

The Lovingston Crusade is the second in a series of crusade meetings which will extend to other areas of Virginia and eventually to other states.

The public is invited to attend any or all of these services.

## *Am I Covered*

Q - Prankster's put sugar in my auto gas tank recently. The engine ran very smoothly prior to this, but even though the garage cleared the gas line the motor is now very rought and I suspect bearing damage. Will my insurance pay for repairs?

A - The comprehensive coverage under your automobile policy pays for loss caused other than by collision to the owned automobile and this would include loss as a result of malicious mischief or vandalism, which appears to be the case here. Therefore, if the difficulty with the motor is a result of the sugar in the gas tank, the policy would cover the damages.

Q - During a lightning storm a few days ago, my television suddenly gave a crackling sound when lightning hit the outside antenna and began smoking from the back. I turned off the set and pulled the plug, but it is completely ruined. Does my homeowners policy pay for repairing or replacing the set?

A - The coverage for your personal property under your homeowners policy would pay for damage to your personal property as a result of lightning. Therefore, the damage done to the television set would be covered, and if repairs would cost more than the value of the item, the company would pay for the value of the television set at the time of the loss.

Q - On a downtown shopping trip, I parked my car in a parking lot and left the keys with the attendant. After I returned home I noticed a long scr- -wn the side of the car. I as- -ould only have been caused at the parking lot. My husband will be furious if we have to claim this under our insurance. Will I be covered by insurance that the parking lot carries?

A - This is not completely clear-cut. If the parking lot has insurance coverage to cover the automobiles in their care, that coverage would respond to the payment of the damages if it was determined that the damage was caused by the negligence of the parking lot.

## Virginia Independent Bank Will Open In Brookneal

It has been announced that *Virginia Independent Bank*, locally owned and managed, will be opening in Brookneal one mile north of the town on U.S. 501. it will be located in the building presently known as West End Baptist Church which will be extensively renovated.

Opening date has been set for January or February of 1974.

Virginia Independent Bank will be a bank with a great growth potential with plans to expand as soon as possible. Stock will be offered to local farm and business people first.

Application has already been made for FDIC membership.

## Plans To Prevent Wrong Way Driving

Large white arrows will be painted on the pavement of entrance and exit ramps on Virginia's interstate highways and arterial bypasses as an added precaution against wrong-way driving, the State Department of Highways said recently.

J. P. Mills, Jr., the department's traffic and safety engineer, said the plan for the arrows was developed during a continuing study of the wrong-way driving problem.

During a 29-month study period which ended in April, wrong-way driving caused 148 accidents, 34 fatalities, and 148 injuries on the state's divided interstate and primary roads.

Mills said the study included "only those movements observed by state police, and the problem could be of much greater magnitude." He said efforts to combat the problem are difficult because about half of the wrong-way driving movements are the result of intoxicated or drinking drivers.

"We believe the new arrows will be another step toward alerting the drivers of the proper direction of travel. If he misses the existing signs and other warnings, we hope he'll see the arrows," Mills said.

The arrows will be placed with reflectorized paint, to insure their visibility at night. They will measure 18 feet 8 inches long and up to 7 feet 4 inches wide -- "large enough so that it will be difficult for a driver to miss them," Mills said. They will point the proper travel direction.

The arrows already have been utilized experimentally on some interchange ramps in the state's Staunton highway district, and now will be extended statewide with a target date of August 31 for completion of their installation, Mills said.

Meanwhile, he explained, the Highway Department and state police will continue their joint study of the problem, seeking still other ways of combatting the wrong-way hazard.

Different colored bindings highlight many of the summer garments.

Shirtwaist style dresses continue to be high fashion for daytime or dinner wear--depending on the kind of material used.

There's a new interest rate in town.

Fidelity offers four new ways to make your money grow faster.*

**1. Earn 5%.** Passbook savings accounts now bring you not 4½%, but 5% interest at Fidelity. Enjoy the convenience and flexibility of this easiest of all ways to save. And, at year's end, your yield has grown to 5.12%.

**2. Earn 5½%.** Invest in our shortest term certificate of deposit. 90 days to one year. Continually compounded, yield is 5.65%.

**3. Earn 6%.** 1 year to 2½ year certificates grow even faster, with an annual yield of 6.18%.

**4. Earn 6½%.** Full 2½ year certificates yield 6.71% at maturity. The highest you'll find at any bank. Anywhere.

Four new, higher interest rates that will make your savings multiply as never before. And with continuous compounding, your interest earns interest, every minute of the day, which means you'll have even more than the interest rate itself when the year ends.

No matter which savings plan you choose, remember this. No bank pays higher interest rates than Fidelity. Period. If you're banking with us, that's good to know. If you're not, shouldn't you be?

Helping you grow helps us grow.
Fidelity National Bank
Member FDIC

*If you've already invested in a Fidelity certificate of deposit, your rate has been adjusted (effective July 1, 1973) to the maximum rate allowed by law for which your certificate was issued. If you wish to extend your certificate's maturity, you may do so without penalty by presenting your certificate at any Fidelity office.
